

Designer and front-end developer with a sweeping background in the visual arts. Avid practitioner of phased prototyping and the iterative design process. Innate fondness for experimentation, and, above all creating compelling visual experiences.

## Experience

### Front-end Developer/Lead Designer

Jubilant Digital Marketing, March 2022 - Aug 2023

- Working in concert with clients and project manager, generated websites optimized for maximum web visibility. The wide scope of my work included website prototyping, brand retooling, and web development.
- As Lead Designer, produced brand style guides, new and redesigned logos, and designed web campaign ads.

### Skills

UX Design  
Graphic Design  
Advanced Prototyping  
React  
JavaScript  
HTML/CSS/Sass  
Illustrator  
Wordpress  
Node

### Web Development Instructor

Nucamp Coding Bootcamp, June 2019 - March 2022

Teaching beginning-to-advanced front-end development, ranging from HTML/CSS/JavaScript to Bootstrap and React. Provided a weekly lecture and facilitated ongoing learning with intensive class projects and weekly assignments.
